Clinicians' Experiences

Don't just take our word for it ...

"The Endosampler is not only an effective kit for outpatient Endometrial Biopsy, it also has added benefits:

- 1. Occasionally small Polyps can be dislodged during Endometrial Biopsy**
- 2. Occasionally help during retrieval of retained Coil when threads are in the Uterus**
- 3. Can be used to evacuate saline from Uterine Cavity and Endometrial sampling just before Novasure Endometrial ablation, 1 instrument for 2 purposes in this situation."**
