Clinical Value – Frustrated by Forceps that Don't Grip?

TIME

With prompt delivery guaranteed, we endeavour to meet your service needs. Avoiding costly delays, reducing hospital stock holding and improving lead time for Instruments

LIFE

With the proportion of those aged 65 and older expected to make up 22% of the population in 10 years' time¹, our Capsulorhexis Forceps help meet a growing need with those over 40 most at risk from eye diseases²

With Cataract Surgery remaining the most frequently undertaken NHS Surgical procedure (approximately 452,000 Cataract Operations undertaken in England and 20,000 in Wales)³, our Forceps help to meet a growing need

COST

No burden of Sterilisation costs

No repair costs for delicate instruments

No shortage of instruments whilst undergoing repair

Clinicians' Experiences

Don't just take our word for it, contact us to trial the Capsulorhexis Forceps in your Hospital
