

'LLETZ' Revolutionise Colposcopy Training with our Award Winning LLETZlearn[®] Training Simulator

Securely hold specimen in place during procedure

The Design Checklist

- ✓ Unique Training Simulator for practical training
- ✓ Can be used with electro-surgical tools to imitate real life treatment
- ✓ Features an intuitive assembly that is easy to clean
- ✓ Available to use with any type of Return Electrode Pad
- ✓ Extremely beneficial as a training tool when used with our Cervical Rotating Biopsy Punch to practice taking a high-quality sample; as well as Colposcopy Coloured Loops and Ball electrodes for LLETZ procedures
- ✓ Awarded the MediWales "Partnership with the NHS Award"
- ✓ UK manufactured
- ✓ Reusable

Clinical Value - A New Horizon for Colposcopy Training

TIME

Intuitive assembly, that is easy to clean

LIFE

Enables trainees to gain the confidence and skills needed before working on a patient

Improves skill and eliminates risk to patients in Colposcopy treatment

Leads to increased overall patient welfare

COST

Enhanced practical training in Colposcopy, reduces the risk and cost of repeat procedures

Clinicians' Experiences - Don't just take our word for it ...

"It gives the trainees the time to learn how to perform procedures to gain the confidence and competence they need."

Theresa Freeman-Wang, Consultant Gynaecologist, Portland Hospital

"The LLETZlearn[®] Training Simulator is the best thing I've seen...I want one!"

Gynaecology Department, Buckinghamshire Healthcare NHS Trust

"This would be perfect for our training programme."

Gynaecology Department, Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust

"It gives the trainee practical experience using a model before working on a patient."

Anna Barbour
