

'Needles' to Say, First Time Sharpness is Guaranteed - Try Our Sterile Single-use DTR Medical[®] Aspirating Needle

The Design Checklist

- ✓ Stainless steel cannula with 18g needle for laparoscopic aspiration
- ✓ Extra long 335mm length suitable for all patients of any BMI
- ✓ Available in 3.5 and 5mm diameter cannulas complete with Luer connection

Clinical Value - Optimum First-time Sharpness of Needle for Ease of Use

TIME

A delicate Single-use instrument that is sharp every time
With prompt delivery guaranteed, we endeavour to meet your service needs. Avoiding costly delays, reducing hospital stock holding and improving lead time for instruments

LIFE

Single-use avoids difficult to clean cannula and needle with stepped joint
Single-use eliminates the risk of cross contamination

COST

This is a cost-effective alternative in comparison to poor quality
No burden of sterilisation costs
No repair costs for bent or damaged needles
No shortage of instruments whilst undergoing repair

Clinicians' Experiences - Don't just take our word for it ...

"Sharpness is essential"

James Cook University Hospital

"Accurate during procedure, effective with good results"

Mid Cheshire NHS Trust

"Sharp is what we need every time"

Royal Alexandra Paisley Hospital
