

A 'Cut' Above the Rest – Try our Sterile Single-use Vannas Scissors

Straight 85mm

Straight 125mm

Curved 85mm

The Design Checklist

- ✓ For use in Ophthalmic procedures such as Iridectomy and Capsulotomy
- ✓ Ideal for delicate practice, such as the removal of fine Sutures
- ✓ Variants are available in 85mm and 125mm
- ✓ Option of either Curved or Straight allowing flexibility
- ✓ Equipped with a ridged handle and a double leaf spring mechanism for self-opening action
- ✓ First-time sharpness which cut even at the tips
- ✓ Sharp/sharp edges

Clinical Value - Precision Scissors for a More Comfortable Patient Experience

With prompt delivery guaranteed, we endeavour to meet your service needs. Avoiding costly delays, reducing hospital stock holding and improving lead time for Instruments

TIME

Eradicate time wasted waiting for Surgical Instruments to be sterilised

Designed with precision our Instrument prevents Tissue from tearing, therefore minimising time for wounds to heal, improving patient experience

LIFE

Eliminates the risk of cross-contamination

Our high-quality, stainless-steel Scissors avoid false economies or cheaper alternatives that require multiple Packs to be opened to ensure a suitable working Instrument is found

COST

No burden of Sterilisation costs

No shortage of Instruments whilst undergoing repair

Clinicians' Experiences - Don't just take our word for it ...

"The Vannas Curved Scissors fit well in the hand and are comfortable to use. Single-use gets around the issue of magnetisation which happens after multiple usage."

South Eastern Health and Social Care Trust
